## SUMMARY

Frontend developer with over three years of experience. Developed two large corporate portals for Magnit, which are used daily by over 15,000 workers. Achieved 60% electronic document flow by creating a web application for generating reports in the personnel department. Additionally, the web development process was expedited by developing a library of reusable components using React and Typescript.

## WORK EXPERIENCE

### Magnit

Magnit is one of the largest retailers with 360,000 employees.

#### Frontend Developer

09/2021 – 05/2024

- Developed two corporate portals for company employees using React and TypeScript, which more than 15000 users use daily.
- Created a personnel services application enabling users to receive reports electronically, reducing paperwork by 60% and significantly saving the company's budget.
- Implemented over 70 design mockups using React, CSS, and TypeScript.
- Led a project to create a UI library with reusable components, reducing website development time by 50% and significantly increasing team productivity.

#### Intern

05/2021 – 09/2021

- Redesigned outdated applications written in older versions of PHP and Angular, updating them to the latest versions to improve responsiveness and enhance the user experience.
- Created technical documentation with project information for new developers.

## SKILLS

- **Programming languages:** JavaScript, TypeScript, SQL
- **Tools:** React 18, HTML5, Next JS, Node.js, Webpack, Git
- **State management:** React Query, Redux, Redux Toolkit
- **CSS:** CSS3, SCSS, SASS, Tailwind CSS
- **UI:** Bootstrap, Ant Design, UI/UX design, Figma
- **Other:** Docker, CI/CD, PostgreSQL, Atlassian Jira, Confluence, Unit testing, Agile Scrum methodologies, API development

## EDUCATION

### Kuban State University

Bachelor of Computer Science

08/2018 – 08/2022
